

How Coins are Evaluated

Coins are evaluated by four criteria:
Condition, Scarcity, Content, & Demand.

Condition: Refers to the amount of wear on the detail of a coin. The less wear the higher the value on specific series.

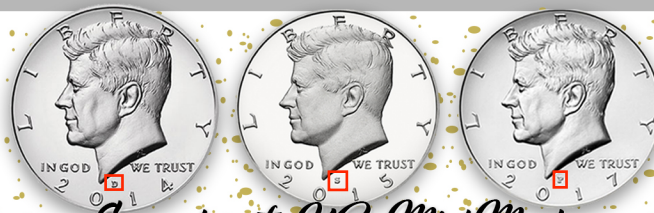

Good Condition-G

Fine Condition-F

Very Fine Condition-XF

Scarcity: Some years and mint marks, less coins were made than others; these are referred to as 'better dates'

Examples of U.S. Mint Marks

P-Philadelphia, PA O-New Orleans, LA CC-Carson City, NV W-West Point, NY
C-Charlotte, NC S-San Francisco, CA D-Denver, CO

Content: What kind of metal a coin is made of

Copper/Nickel

Silver

Gold

Demand: How popular a particular series is to be collected

Here is a rough guide to help you identify and sort your coins.

Indian Head Cents 1859-1909
